Subject: Bristol Bay Watershed Assessment Brownbag

SEATTLE OFFICE-CENTRIC. Others are welcome if you are in town!

ECLers....Since I left ECL, I've been getting lots of questions about my current project, the Bristol Bay Watershed Assessment. It's been interesting to work on the "front end" of environmental protection, attempting to prevent future Superfund Sites!

I've scheduled a brownbag so those of you who are curious can hear and see what this project is about. Please stop by if you are interested:

Thurs, January 12, 11:30-12:30, Room 11R.

Sheila M Eckman
